RE: WC Docket No. 02-60, Rural Health Care Pilot Program, Texas Health Information
Network Collaborative (THINC)

Dear Commissioner:

Please accept this letter as an indication of my support of the Texas Health Information
Network Collaborative (THINC) infrastructure proposal.

THINC is a statewide effort encompassing all of Texas. It will allow the rural health care
providers to connect with urban medical centers. This program will allow telehealth
programs and services, medical education and other services by making high speed
broadband access available, resulting in improved access to care, patient safety and
quality and patient and clinician satisfaction.

I appreciate the FCC's interest in expanding the capabilities of rural health care delivery
and improving the care of all Texans.

Sincerely,

A handwritten signature in black ink, appearing to read "Kyle Janek".

Kyle Janek
